test data

The test dataset includes two test samples provided by ChatGPT, an AI language model developed by OpenAI.
These samples include a Markdown table and an English text that can be used to test English to Chinese translation software that supports text and table formats.

Text Test

The agile brown fox jumps over the lazy dog. This sentence contains every letter in the English alphabet at least once. Full letter sentences are commonly used to test fonts
Keyboard and other text related tools. Besides English, many other languages also have all letter sentences. Due to the unique characteristics of certain languages, some all letter sentences are more difficult to construct.
